

# BREAKTHROUGH TECHNOLOGY CONNECTING ANY JOURNEY

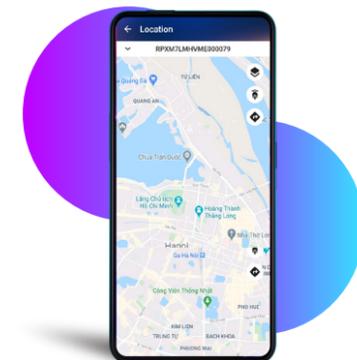

## MODERN PHONE AS A KEY (PAAK) TECHNOLOGY SYSTEM

- Control the E-scooter easily and keylessly with just one touch via the phone app
- Flexible start and shutdown
- Remote activation and deactivation of anti-theft warning feature
- Convenient trunk opening

## HMI INTELLIGENT CONNECTION - ESIM INTEGRATION SYSTEM

- Automatic diagnostic and error warning help the driver to safely control the E-scooter
- Global Positioning System (GPS) for Vehicles
- Journey management
- Automatic app updates on smartphone

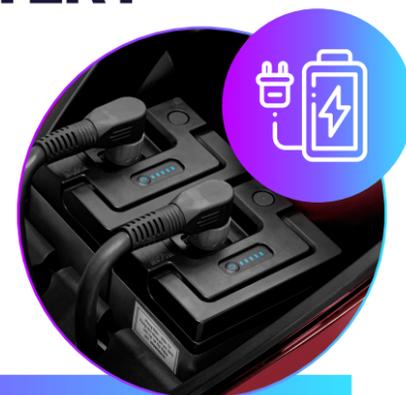

## SMART KEY

- No control lock required
- Equipped with automatic sensors for start and shutdown within one meter
- Multiple features in one key: unlock and lock the steering column and trunk, activate anti-theft warning feature

# ADVANCED BATTERY TECHNOLOGY

- Lithium battery technology: Lithium battery uses Samsung Cell Battery technology and advanced Battery Pack technology researched and developed by VinFast, meeting the European standard UNR R136.
- Maximum travel distance in single full charge is up to 101km, charging time from 0 - 100% state of charge is 5.5 hours

## EFFECTIVE BATTERY PRESERVATION

- Maintain battery capacity above 20% during use. Plug in the charger when the battery capacity is lower than 20%, avoid letting the battery empty.
- Do not charge the battery when its temperature is higher than 45°C. For safety reasons, the battery will not charge when its temperatures is at 72°C or more.

# FLEXIBLE BATTERY POLICY

## OPTION 1

Battery purchase cost **VND 8,600,000/1 battery**

## OPTION 2

Battery deposit (will be refunded to the customer when the battery renting agreement is liquidated) **VND 2,400,000/2 batteries**

Monthly renting fee **VND 350,000**

Battery rescue fee **VND 50,000/time/battery**

## BATTERY RENTING BENEFITS

- No purchase costs, no battery risks with renting costs from only VND 350,000/ month
- Flexible charging at home and at VinFast extensive charging station system
- Using advanced technology for battery management, VinFast provides a lifetime battery warranty to ensure the best customer support

MOTOR	
Maximum useful power (maximum power) W	7100
Power rating (w)	3500
Motor type	Central electric motor with chain drive system
Maximum speed	90 km/h
Waterproof standard	IP67
BATTERY SYSTEM	
Battery type	Lithium batteries
Battery capacity (Ah)	49,6/2 batteries
Average weight	19kg/2 batteries
Full charge time (h)	5.5 - 6
Waterproof standard	IP67
Travel distance in single full charge (km) - speed of 30km/h	101
FRAME/SHOCK ABSORBER/BRAKE SYSTEMS	
Front shock absorber	Telescopic shock absorbers, hydraulic dampers
Rear shock absorber	Double shock absorbers, hydraulic dampers
Front brake	Disc Brake ABS Disc
Rear brake	Disc Brake ABS Disc
BASIC SIZE	
Front - rear wheel axle - distance (mm)	1360
Length x width x height (mm)	2006 x 800 x1255
Ground clearance (mm)	160
Saddle height (mm)	780
Trunk volume (L)	17
Front x rear tire size	100/80-16  120/80-16
WEIGHT	
Vehicle and Batteries (kg)	146
LIGHTING SYSTEMS	
Front headlights	LED projector
Turn signal lights - Taillights	LED

# HIGH-CLASS

# DESIGN

## CHALLENGE ALL LIMITS

Design by the renowned design firm Kiska, Theon is a symbol of power, speed, technology and the future.

 **POWERFUL**

 **SPORTY**

 **TECHNOLOGY-INFUSED**

 **TRENDY**

## POWERING FORWARD

**90** KM/H

 **MOTOR POWER OF 3,500W**  
Maximum speed up to 90km/h

**101** KM

 **ADVANCED BATTERY TECHNOLOGY**  
With the advanced battery technology researched and developed by VinFast, maximum travel distance reaches 101 km in single full charge

**0-50** KM/H

 **QUICK ACCELERATION**  
From 0-50km/h within 6s

**CENTRAL ELECTRIC MOTOR WITH CHAIN DRIVE SYSTEM**

Ensuring balance and the ultimate driving experience

**SHOCK ABSORBER SYSTEM FOR SMOOTH EXPERIENCE**

Equipped with Japanese famous Showa shock absorber system for smooth feeling on every journey

**BEARING CHASSIS IN ACCORDANCE WITH EUROPEAN STANDARDS**

Safe operation on diverse terrain conditions

## EXCELLENT SAFETY

**ABS CONTINENTAL BRAKE SYSTEM**

ABS Continental front and rear brakes increase anti-slip capabilities when moving, ensuring safety on all terrain conditions.

**FULL LED LIGHTS AND TRENDY PROJECTOR HEADLIGHTS**

Full LED lights including headlights, taillights, turn signal lights, and brake lights. LED Projector headlight system enhances safe lighting when traveling at night.

**IP67 WATERPROOF STANDARD**

Stable operation even when submerged in 0.5m for 30 minutes

**SHOWING YOUR PERSONALITY**
